Press Release

GET INTO THE HOT SEAT FOR THE METEOR ELECTRICAL CIRCUIT OF IRELAND INTERNATIONAL RALLY 2006

With the Meteor Electrical Circuit of Ireland International Rally fast approaching (14 – 17 April 2006 in Londonderry), more people are being urged to get up close and personal with motorsport's top rally event.

If you follow rally motorsport but somehow wish that you were part of the action too there are opportunities to become a marshal. We have all seen the m – the marshals – the dedicated individuals that make the rally 'happen'.

They're the crowd controllers, the flag teams; the safety specialists who make sure that the crowds see the action safely while the drivers get on with what they do best.

And although the Meteor Electrical Circuit of Ireland International Rally is only weeks away, there is still time to register your interest and find out more about marshalling.
